

Dear Anneliese,

This is Charlotte [redacted] from year 5 in Tregelles.

Thank you so much for coming in to Tregelles and telling me amazing facts that I never knew until you came to our school. Your poems were mind blowing and funny.

My favourite insect was the common ladybird. (Which personally I think it is much better than the yellow 22 spotted ladybird.)

The music was also very nice to. I have visited your blog and it is very interesting and also tells me a lot I didn't know.

Thank you so much for visiting our school and I really hope you can come again.

I have written a poem to and I hope you enjoy it.

Best wishes

Charlotte [redacted]

MARCH 10th 2010

Dear Anneleise,

Thank you so much for coming in and doing a talk about lots of creatures, I found it really fascinating. Before you came I use to hate creatures like spiders, slugs, wasps and bees so much that when ever I saw one of them when I was playing outside, I use to run inside and up to my bed room. Yes, I know it was a bit over the top but I really was terrified of them even though I new that they were terrified of me just as much as I was of them! But after you had come you made me feel a little more relaxed. I am still scared of spiders but not quite as much though!

Another thing that you did when you came was read and do a lot of poetry.

It was really clever how you played on words and made them rhyme. Something else that was truly amazing was that every single line was 100% (or maybe 99 %!) true!

I can't wait till all the creatures come out again! I am going to try to make a discovery that has never been made before just like you.

Thank you again.

From

Mairead.

Dear Anneliese,

I am Phoebe , I am in Year 5 and
I go to the Mount school in York.

Thank you for the wonderful morning and afternoon with you. I think that you are extremely excellent at acting. I like the 22 spotted, yellow and black ladybird poem! I also liked the 2 spotted, red and black ladybird poem. I liked them because they showed if ladybirds could speak, they would say exactly what you put in your poems about them! I also think that I have been encouraged to write more poems about wildlife in my garden but the only thing is that I don't think that they will ever be as good as yours!

I really like the fact that you brought poems to life, like it says on the book mark you gave to me.

Thank you once again for my incredible morning and afternoon!

Yours sincerely,

Phoebe

Tregelles,
The Mount School,
Dalton terrace,
York,

Dear Annelise,

THANK YOU sooooo much for coming into Tregelles, I had so much fun! My favorite activity was probably writing a poem. Mrs Keely (my teacher) has sent a copy to you, I hope you like it! My favorite poem was Chompings Champion; the caterpillar on the photo looked so funny! (By, the way, *love* the accent!!!!) I've been on your blog and on it I have learned so much about bug watching (watching and waiting, watching and waiting)!

Thank you again,

Felicity _____, Yr5, Tregelles.

PS. The music was great too!

Dear Annelies

My name is Holly, and i am in year 5 at Tregelles I loved your assemply. I thought it was very interesting. I could have stayed there for another hour to listen, i've been on your big buz website- i love it! Thank you so much! I have never been so interested about insects before, but after you came in I was looking in my garden for one hour.

I really hope there are going to be more insects in my garden! I loved your assembly. Thank you, i really loved it! I hope you come again!

Yours Sincerely

Holly
